# **MEA calls for urgent MCESD meeting to discuss Situation in Libya**

The Malta Employers' Association has asked the Prime Minister for an urgent MCESD meeting to discuss the recent developments in Libya. The Association stated that the social partners must work on a strategy to build on the already existing relationship with Libya to the mutual benefit of both countries. Malta can be instrumental in the rebuilding process of the newly liberated country and benefit from numerous business opportunities in many areas of economic activity through a coordinated effort between the sectors involved.
