BE PART OF THE DISCUSSION

WEBINAR | 23RD MARCH 2021 | 11.00-12.00

# AGENDA

This webinar aims to instigate discussion amongst employers in the private sector about the challenges and opportunities being faced when dealing with transport. Nearly all sectors deal with some form of transport - whether being a company that forms part of the sector itself, or be it a company that offers delivery of goods, companies dealing with importation and exportation...

There needs to be a discussion on the push towards investment in new RES technologies and its implications, the introduction of green taxes, as well as re-skilling and training.

Join us and be part the programme:
