To Whom It May Concern

PRO_INKLUDE

MALTA EMPLOYERS' ASSOCIATION

The pro-inklclude initiative, which is being managed by the SME Helpdesk within the Malta Employers' Association, is a prime example of how organisations can work together in pursuance of the Sustainable Development Goals and help organisations shift from the 'bottom-line' mindset' to a triple bottom line mindset – People, Planet, Prosperity.

By raising awareness and also providing the right tools and resources to turn principles into concrete action, the MEA is at the forefront in ensuring that its members and the wider community are well equipped to manage the requirements of a contemporary workforce and to help the country reach its socio-economic goals.

Dr. Roberta Lepre B.A.LL.D
