

CREDIBLE | COMPETENT | CONSISTENT

To whom it may concern

The General Workers' Union is highly satisfied that an Employers' Association exists in Malta. As a workers' union, we can strongly vouch that we found the Malta Employers' Association to be crucial in the stabilisation of industrial relations in our country. Moreover, on various occasions we called upon the mediation of the Malta Employers' Association so to come to a successful conclusion of a trade dispute. We found also the Malta Employers' Association to be a social partner that we can work with.
