## To Whom It May Concern

Throughout the 50 years of co-existence, MEA had ample occasions whereby both organisations crossed paths but rarely ever crossed swords. In my time as Secretary General, MEA gave us full support on Jobs + - a UHM initiative on a national level. MEA excels in its mediation approach and in many instances intervened on issues related to particular places of work. MEA also enhanced its endeavours by contributing towards a sound business environment where businesses could thrive and strive to explore new venues. On behalf of UHM, I augur and am positively sure that the core values of MEA that have brought it so far will continue to reap brighter prospects in the coming years.
