

**To whom it may concern**

The Ministry for the Economy, Investment and Small Business has, over the years, built a strong relationship and line of communication with the Malta Employers Association.

Its pro active response in various situations has evidenced the association's reliability and professionalism as a representative of Maltese Employers that has also built a reputation for seeking to promote Malta as an ideal location for investment by foreign and local entrepreneurs.

The Malta Employers Association is regarded by the Government as a main stakeholder which is also a member of the Malta Council for Economic and Social Development (MCESD), an advisory council that issues opinions and recommendations to the Maltese government on matters of economic and social relevance.

Yours Sincerely,

Dr. Christian Cardona  
Minister for the Economy, Investment and Small Business
